MOISE DIARRA

IT SOFTWARE ENGINEER | AI-POWERED APPLICATIONS

Accra, Ghana | +233 540 860 225 | moisepr@gmail.com

PROFESSIONAL SUMMARY

Software Engineer with 6+ years of experience delivering full-stack business applications, AI-powered solutions, and IT services across Africa and for international organizations. Specialized in designing maintainable enterprise systems and IT. Proven ability to lead projects end to end — from requirements and architecture to deployment, training, and user support. Fluent in English and French.

TECHNICAL SKILLS

Architecture: Clean Architecture, Modular Monolith, Vertical Slice Architecture, Domain-Driven Design, REST APIs and Microservices.
Backend: Python (Fast API/Django), C# (.NET Core), Java (Spring boot), Golang, NodeJS - Prisma
Frontend: React -TypeScript, Angular
Databases: SQL Server, PostgreSQL, Oracle 19c / PL-SQL,
DevOps & Cloud: Git, GitHub Actions, Docker, Azure, Linux, Windows Server 2019
AI Engineer: Generative AI application and Agentic AI, Tokenization, Agents, RAG, Vector DBs, and deploying scalable AI
ERP & Platforms: Odoo implementation and training, Moodle 4 administration, Sage FRP 1000

PROFESSIONAL EXPERIENCE

Senior Software Developer — XDS DATA Ghana Ltd., Accra, Ghana Aug 2025 – Present

- Design, develop, and maintain enterprise software solutions supporting credit bureau and data services operations, including a Billing System, an Approval System, a Portal API consumed by banks and financial institutions and a Payroll System for the company.
- Architect applications following Clean Architecture with a Modular Monolith structure and Vertical Slice organization, keeping business logic independent of frameworks and each feature independently testable and maintainable.
- Build and operate CI/CD pipelines with GitHub Actions, Jenkins, and Docker; support cloud deployments on AWS and Azure.
- Collaborate with cross-functional teams on system architecture, code reviews, and production support.

Software Engineer & Data Scientist — DIARRADEV (independent practice), Bamako, Mali 2021 – 2024

- Delivered complete business applications for clients: a school management system (C# .NET Core API + React), an HR management system (Python Django + React), an e-commerce platform (Java Spring Boot + Angular), and a payroll management system (.NET Core + Angular).
- Built data analysis dashboards and reporting solutions with Python & Streamlit.

IT Manager & Developer — ACREMAC SARL (Africa Credit Management Assurances & Consulting) 2023 – 2024

- Managed the company's IT infrastructure and developed internal business applications.

IT Expert Trainer (contract engagements) — SOFRECO France & CSA; ESC-MALI University 2020 – 2024

- Delivered professional IT training programs, including ERP/information-systems digitalization courses at university level (Odoo).

Customer Journey Analyst & Time-to-Market Manager — Orange Mali, Bamako, Mali Jul – Dec 2021

- Analysed customer journey data and managed time-to-market processes for telecom products.

Country Programmer Analyst — 1SIMPLE1 (Canadian company, Mali) Aug 2019 – Dec 2020

- Served as in-country programmer analyst for a Canadian firm, developing and supporting software solutions remotely.

IT Manager — CRLD — Centre for Research and Fight against Sickle Cell Disease, Bamako, Mali Feb – Aug 2019

- Managed IT systems and infrastructure for a national medical research centre.

IT Assistant — Software and Services Group, Bamako, Mali Aug 2017 – Mar 2019

- Implemented and supported Sage FRP 1000 ERP at the Radisson Blu Hotel; trained users and wrote installation procedures.

Earlier experience (2012 – 2017): Web application developer intern at PSI Mali (US NGO); Head of IT Department at Les Étoiles d'Or SARL (Benin); database management (SQL Server) at RMCR/World Vision; IT lecturer for the PRCDE graduate reinforcement program; IS internship at CFAO Technologies.

EDUCATION

Master's Degree, Software Engineering — ISPATEC, Mali — graduated with Highest Honors 2023 – 2025

Bachelor's Degree, Software Engineering — TechnoLAB ISTA, Mali 2013

PROFESSIONAL DEVELOPMENT (SELECTED)

- Claude Code for Professional Developers; Build AI-Powered Apps — An AI Course for Developers (codewithmosh.com, 2026)
- Generative AI: Build RAG, AI Agents & Chatbots, master MCP, and deploy real-world projects.
- CompTIA Security+ (SY0-701) — complete course & practice exam (Udemy, 2026)
- COBIT — Foundations of IT Governance; ITIL 4 Foundations for Service Management (Alison, 2026)
- AWS Certified Solutions Architect – Associate training (Udemy, 2024)
- ISO 27001 cybersecurity risk management (LinkedIn Learning, 2022); ISO 19011 Lead Auditor (Alison, 2024)
- Foundations of Artificial Intelligence (Project Management Institute, 2025); Big Data architecture design (CentraleSupélec, 2020)
